Subject Index

Alan Gregg Lecture:

Medical school financing and national and institutional planning, Darley, 97

Ambulatory Services: See Medical Care

Anatomy:

Trends in curriculum, faculty, and training in, Educational Affairs Committee of the American Association of Anatomists, 956

Association of American Medical Colleges:

Annual Awards (1966): Abraham Flexner Award to James A. Shannon, Luckey, 1009; Alan Gregg Lecturer—James A. Shannon, Turner, 1012; Borden Award to Oliver H. Lowry and Janet V. Passonneau, Stetten, 1013

Annual Meeting, 1965:

Abraham Flexner Award to Joseph T. Wearn, 568; Alan Gregg Memorial Lecturer—Ward Darley, 567; Borden Award to Paul Charles Zamecnik, 569; Business meeting, 570; Discussions on medical education, 619; Foreign guests, 565; Introduction of new deans, 564; Introduction of new provosts and vice-presidents, 565; Program, 567

Books published during 1965, annotated bibliography of, 622

Coggeshall Report, discussion and action on implementation of, 608

Committees of (1964-65), 630

Continuation Education: Fourth Annual Conference on, 530

Council of Teaching Hospitals: Importance of formation of (*Editorial*), Cooper, 386

Deans and representatives of government, meeting of: AAMC-VA Liaison Committee, 549; Discussion on federal medical programs, 553

Division of Education: Restriction of range artifacts in validity studies of the MCAT, Sedlacek and Hutchins, 222; Study of medical student attrition, Davis and Hutchins, 1097-1270

Division of International Medical Education: Second Annual Conference, 547. A world program for health manpower—report to the Agency for International Development (Sept., Part 2), 27-134; 304-308

Group on Student Affairs: Ninth Annual Meeting, 532

Institute (1966), International Medical Education: Implications of (*Editorial*), Cooper, 476; Report of (Sept., Part 2): Preface, Turner, vi; Introduction, Moore, xv; Analysis of, and guidelines for future action, Hyde, 267; Organization of, 289; Roster of participants, 293; Bibliography, 325

Institute (1965), Third Administrative: Editorial, Cooper, 171; Program, 620

Institutional membership meeting: February 6, 1965, 525

Medical School-Teaching Hospital Section: Eighth Annual Meeting, 541

Officers and staff of: (1964-65), 524; (1965-66), 629

Reports: Chairman of the Executive Council, 570; Committee on Federal Health Programs, 601; Committee on International Relations in Medical Education and the Division of International Medical Education, 594; Committee on Medical Education for National Defense, 604; Committee on Medical School-Affiliated Hospital Relationships, 606; Committee on Research in Education and the Division of Education, 587; Consultation and Visitation Program, 600; Committee on Student Affairs, 606; Division of Business Affairs, 581; Director, Division of Operational Studies, 584; Editor and Editorial Board, *The Journal of Medical Education*, 599; Executive Director, 572; Nominating Committee, 608; Secretary, 577; Treasurer, 578

Research in Medical Education: Fourth Annual Conference on: Program Committee, 193; Editorial, Sanazaro, 295; Program, 545. Fifth Annual Conference on: Announcement, 70, 294

Bibliographies:

Of AAMC books published in 1965, 622

On medical education, 93, 186, 299, 396, 491, 730, 813, 904, 1003, 1092, 1273

On medical education, 1964-65, Nov., Part 2

On medical education in the developing countries, 1956-66 (Sept., Part 2), 325

Conferences:

Institute on International Medical Education, 1966, Report of, Sept., Part 2

Research in Medical Education, Proceedings of the Fourth Annual Conference on, 195-296

National Board of Medical Examiners, Report of the Fiftieth Anniversary Invitational, July, Part 2

Communications:

Importance of libraries in medical (*Communication*), Fogarty 73; Hill, 80; Harris, 84

History of television in medical, Harris, 1

New York Academy of Medicine's television programs, Menzel *et al.*, 826

Survey of medical communication sources, Harris, 737

Community Medicine: See Comprehensive Medicine

Comprehensive Medicine:

Effects of home-care program on student attitudes toward, Lewis, 195

Family practice clerkship in the Netherlands, Mertens, 362

Home-care program as a technique for generating professional identity, Tomich, 202

Outline for medical services in developing countries, Figure 3.6 (Sept., Part 2), 72

Program in community medicine for medical residents, Wise *et al.*, 1071

Social Medicine: Identifying ecologic factors affecting diagnosis and patient care, Bishop *et al.*, 465; Social and behavioral sciences in medical education, Simon, 1049; Social, cultural, and individual values in medical practice, Buxbaum, 516; Teaching an orientation to social medicine, Antonovsky, 870

Continuing Education:

Design for, Berman, 965

Evaluation of the New York Academy of Medicine's television programs, Menzel *et al.*, 826

Survey of medical communication sources, Harris, 737

Use of encoded two-way television in, Smart *et al.*, 977

Curriculum:

Changing patterns in the medical, Atchley, 325

Curriculum planning, changes in education affecting, Funkenstein, 401

Diagnostic radiology in a medical, Abrams, 850

Examinations procedures in the medical, Rosinski and Hamilton, 135

Instruction in ecological history-taking, Bishop *et al.*, 465

Medical etymology, Thomas and Steele, 697

Mental retardation in the general psychiatric, Menolascino, 877

Need for instruction in human sexuality, Sheppe and Hain, 457

Need for introductory studies of international health (*Communication*), Long, 993

Proposed reform of, at the University of Indiana, Penrod, 1030

Sequential examinations in assessing the impact of a new medical, Jason (July, Part 2), 18

Social and behavioral sciences in the medical, Simon, 1049

Social medicine orientation within the medical, Antonovsky, 870

Training program in the critical evaluation of drug claims, Daniel and Leedham, 49

Trends in anatomy, Educational Affairs Committee of the American Association of Anatomists, 956

Use of drama in teaching human behavior, Spradlin, 377

Datagrams:

Fringe benefits for medical school faculties, 489

Full-time faculty, 297

Medical school expenditures from funds for regular operations, 91
